Island Park SUMMER MOTORIZED RECREATION MAP 2024

This map was made possible thanks to partnership between:

BLM, IDH, USFS, FWS, NPS, BLM, IDH, USFS, FWS, NPS

IDAHO REGISTRATION REQUIREMENTS

REQUIREMENTS FOR OPERATION ON A DESIGNATED TRAIL

- Valid IDPR OHV registration sticker
- Helmet under age 18
- Muffler and US approved spark arrestor

REQUIREMENTS FOR OPERATION ON STATE & FEDERAL ROADS (IDL, BLM, USFS, FISH AND GAME)

- Valid driver's license except under age 16 when supervised by an adult
- Valid IDPR OHV registration sticker
- Helmet under age 18
- Muffler and spark arrestor

REQUIREMENTS FOR OPERATION ON CITY & COUNTY ROADS

- Valid restricted vehicle license plate
- Valid IDPR OHV registration sticker
- Valid Driver's license
- Liability Insurance
- Helmet under age 18
- Muffler and spark arrestor

OBEY ROAD & TRAIL RESTRICTIONS

- Observe the most recent copy of the Caribou-Targhee Ashcroft/Island Park motor vehicle use map and follow all regulations as stated therein.
- Cross-country motorized travel is prohibited; ride only on trails and roads for motorized use during the season in which you are riding.
- Vehicle Use on OHV routes: All motorized trails are open to ATVs less than 50 inches wide and motorcycle.
- OHVs are allowed on all Forest Roads.
- Vehicle 50" wide and less are allowed on "ATV" trails. This includes side-by-side vehicles that meet these width requirements.

KNOW BEFORE YOU GO

The purpose of this map is to provide useful information that will help visitors best navigate the motorized routes of the West Yellowstone and Island Park areas for visitor enjoyment. The map also shows information regarding trailheads, campgrounds, non-motorized routes, and service information listed in the legend.

Travel restrictions in the West Yellowstone and Island Park areas are subject to change in response to future travel planning decisions. This map will be updated to best reflect conditions for visitor convenience and enjoyment. This is not a travel plan map. Official travel maps and other detailed information on travel restrictions are available from the Hellsburg Lake Ranger Station in West Yellowstone, Montana or the Island Park and Ashton Ranger Stations in Idaho. It is each visitor's responsibility to understand and obey all travel restrictions as well as posted signs. Compliance with all Federal, State, and local laws and regulations is your responsibility.

This map shows popular routes in the West Yellowstone and Island Park areas. Not all roads and trails are identified. The map provides information on routes that may be more popular than other routes because they provide better loop riding, access to destinations, and scenic opportunities. This map does not display over snow cover.

OHV SAFETY

- Gloves - A good pair of gloves is essential.
- Boots - It is important to have a pair of strong, over-the-ankle boots, with heels.
- Shirt or jacket - Wear a long-sleeved shirt or jacket when riding for protection.
- Pants - Wear long pants to protect your legs.
- Never Ride Alone - Ride with a partner.
- Be certain each rider has a map and knows where the group is headed.
- Before leaving the trailhead, choose rest stops and meeting places for your group, in case you become separated.
- Stay on the correct route if you become separated, and let the group find you.
- Check that your OHV is in proper working condition; all fluids are topped off; there are no loose or broken parts; and that your spark arrestor is in good condition and has not been modified. Be prepared for vehicle break downs.
- Ride within the limits of your skill and endurance.
- Know how to properly operate and control your vehicle.
- Maintain a safe following distance.
- Keep headlights on at all times so others can see you.
- Provide direct parental supervision for riders under the age of 13.
- Complete a rider safety course before operating an ATV or motorcycle.
- Never carry passengers on an OHV unless it's designed for that purpose.
- Do not use drugs or alcohol - riding a motorcycle or ATV requires a high degree of skill and judgment. Ride sober!
- Carry basic tools and survival gear, including plenty of drinking water.
- Wear appropriate protective gear including a helmet, eye protection, long-sleeved shirt, sturdy pants, over-the-ankle boots, and gloves. Dress for the weather, but never wear anything loose that could catch in wheels!
- Helmet - A helmet is the single most important piece of protection that can be worn.
- Eye protection - Always wear goggles or a bubble visor shield.

TEMPORARY AND EMERGENCY CLOSURES

Designated roads, trails, and areas may be subject to temporary, emergency closures to protect the life, health, or safety of Forest Service visitors or the natural or cultural resources in these areas. On National Forest lands, violation of these prohibitions is punishable by a fine of not more than \$5,000 for an individual or \$10,000 for an organization, or imprisonment for not more than 6 months, or both (16 USC 551 and 18 USC 3559 and 3571).

CROSS-COUNTRY TRAVEL BY MOTORIZED WHEELED VEHICLES

Cross-country travel by motorized, wheeled vehicles has been prohibited on Montana and Idaho National Forest System lands since 2001.

Wheeled motor vehicles may be parked off the edge of a road on National Forest lands when it is safe to do so without causing damage to resources or facilities, unless prohibited by state law or posted regulation.

DISPERSED CAMPING

There are a number of camping opportunities in the West Yellowstone and Island Park areas. Most of the vehicle camping, however, is in "dispersed" or undeveloped sites near the roads. Campsite selection must be completed by non-motorized means, and travel to the site must be by the most direct route. Please use existing routes whenever possible to reduce potential resource damage.

RIDE RESPONSIBLY AND ETHICALLY

CARING FOR PEOPLE, WILDLIFE, AND THE LAND

Before you leave, check weather conditions and be prepared. Trail and road conditions can change depending on elevation, terrain, soil types, and weather. Drive responsibly and stay in control. Be honest about your skill level and other people's skill levels. Plan your trip based on the lowest skill level. Supervise children on OHVs carefully and set a good example. Ensure children have been trained in OHV safety and teach them by your example: respect for the land.

Stay on the trail. Use switchbacks rather than cutting them. While climbing hills, avoid wheel spins, and avoid brake-sliding when descending steep grades and switchbacks to prevent gouging of the trail, which leads to greater water erosion damage.

Don't highmark trail or road embankments. Riding on the embankments loosens soil and removes vegetation that may cause the embankment to erode onto the road or trail creating hazards and increasing maintenance costs.

Respect private land. Please do not access these lands if it is gated or signed. Do not destroy property or take anything that does not belong to you.

Ride quietly. Respect other users as well as the wildlife along your route.

YOUNG RIDERS

- Always supervise your children when they are riding.
- Camping areas are not riding areas. Riding in, near or around campgrounds can impact soils and plants and is disrespectful of other campers.
- Riding OHVs in campgrounds is prohibited. Ride on designated motorized trails only.
- Anyone under the age of 12 may operate an OHV on unopened roads if accompanied by an adult and the motorcycle or quadcycle is operated in a reasonable and prudent manner.
- Always be sure your children use proper safety gear.
- Helmet can prevent and reduce the severity of head injuries. Helmets must meet DOT or Snell standards and be worn by those under 18 who operate or ride a motorcycle or quadcycle on streets or highways (MCA 61-417). Helmets are strongly recommended for ALL OHV operators and riders.
